We have found the IPPFA to be the one true pension group to be focused on the needs of all public sector employees. Over the years, they have been instrumental in the formation of programs that assist their members in retirement, investments, and healthcare issues.

They continually provide seminars that are informative regarding the pension laws of our state and how they apply to the individual retiree in law enforcement. They have top people working in their organization for you, the active police officer.

The Board of the Metropolitan Alliance of Police is asking for your support in working with the IPPFA in order to enhance the working and retired environment of all law enforcement.
